

## Luxury Cow Mattress

The Rubber & Resin Specialists

Quattro's Luxury Mattress is approximately 35mm thick and is made using Quattro's Interwoven rubber top cover which is one of the strongest reinforced rubber covers on the market.

Our high strength luxury cow mattresses are well tested and highly recommended. We offer seamless runs with high strength insertion rubber cover with luxury foam infill for ultimate comfort. The design of our luxury cow mattresses makes for easy natural drainage keeping beds and cows cleaner for longer.

Can be supplied for self fitting or fitted by our own professionally trained fitters.

After looking into other mattresses and mats we discovered that most systems still have inherent problems. Some have porous covers and covers that split, both a breeding ground for bacteria. Some are filled with rubber crumb that spreads when used forming a hollow that holds dirt and urine. Wet bedding gets underneath some cubicle systems causing deformity in the mats. All these are potentially mastitis problems.

Taking the above into account Quattro have produced a superb thick, comfortable, strong mattress that overcomes all of the above, providing comfort & safety.
