

FLEXSCREED® STONE BLEND

The Rubber & Resin Specialists

Quattro's high tensile Flexscreed® Stone Blend system is designed as an open heavy duty rubber screed for Racecourses, Horse Walks, Yards, etc.

It provides a seamless cushioned protective anti slip surface for horses, riders and grooms.

The Flexscreed Stone Blends addition of coloured stone provides a more aesthetic appearance.

The standard depth of Flexscreed® is 15mm but this can be varied to suit the environment required.

It can provide a competitively priced option to the heavier pre manufactured rubber tiles.

Flexscreed® is ideal to apply to difficult shaped areas and will deal with poor and uneven substrates without the requirement of a great deal of Groundwork's.
